

Aniyah Jeter

School: Hollywood Elementary

Teacher: Ms. Ali Pascucci

If I were a mayor, I would recycle. I would recycle because it makes the environment cleaner. It finds ways to use solar power. It makes people Go Green.

If I were mayor, I would get rid of the illegal guns. I would get rid of illegal guns because if some person shoots another person, the person that shot the gun, will go to jail. It would make College Park and the streets safer by reducing violent crime. Once violent crime is lowered, families would be safer.

If I were mayor, I would eliminate traffic by putting more sidewalks and bike lanes and by putting more traffic lights in areas with heavy traffic. I would offer working citizens reduced gas coupons toward carpooling in order to decrease pollution. I would try to convince people to use public transportation to also lower air pollution and traffic.

If I were mayor, I would try to build college prep schools and activities. We would hold fundraisers to earn money for our schools. I would try to get teachers' salaries to increase and funds for better libraries.

If I were mayor, I would build a library, a better park and a recreation center with a pool and a football or soccer field.

Sincerely,

Ahiyah Jeter
